FNW-092181/D2	690	660	790	330	DAF
FNW-092181/V	690	670	830	280	VOLVO
FNW-092181/RT	690	670	830	280	RENAULT

EC Whole Vehicle Type Approval

With the advent of EC Whole Vehicle Type Approval, 2007/46/EC introduced in 2007 and certain amendments made latterly. It is now a mandatory requirement on vehicle categories N₂ (vehicles over 7.5 tonnes) N₃, O₃ and O₄, to adopt the European Fitment Criteria, which can only be achieved in most cases with Spray Suppressions mudflaps of 710mm and over in length. UK specification Spray Suppression mudflaps are permissible for retrofit on vehicles registered prior to EC Whole Vehicle Type Approval.
